

## Electrical Engineer

**Are you an experienced Electrical Engineer?  
Do you like to work in a fast-paced environment?  
Are you pro-active, with a can-do attitude?  
Then come join the team at Willowbrook.**

At Willowbrook, we are an ambitious team who work together to achieve results. We have invested in machinery over the past year and are recruiting for an Electrical & Mechanical Engineer.

### **The Role:**

The post holder will provide skilled support in matters relating to premises maintenance and machinery repairs. They will ensure that all engineering works are done promptly, efficiently and to the correct standard to minimise plant downtime; coupled with a proactive approach to breakdown reduction and yield improvement.

### **The post holder will need:**

- Electrical engineering apprenticeship (completed) plus 3 years experience
- Demonstrable experience in a Mechanical role
- FMCG experience, short shelf life products
- H&S Knowledge
- Full driving licence
- Ability to understand a manufacturing process, analyse the inputs and outputs – draw up plans to continually improve
- Ability to prioritise workload and meet appropriate deadlines
- IT Literate
- Flexibility

**Remuneration:** £12.75 per hour (the rate of pay will be reviewed after on the job training.) Overtime paid at 1x1/4 after 48hrs

**Job Type:** Permanent Fulltime. Must be available to work shifts

### **Application Details**

To apply please send a CV demonstrating how you meet the required criteria for job success.

Email: [recruitment@willowbrookfoods.co.uk](mailto:recruitment@willowbrookfoods.co.uk)

**Close Date and Time:** CV's must be received by no later than **5pm on March 26<sup>th</sup>. 2021.**
